

To: FCC Officials

I oppose your proposed changes to broadcast standards. By even proposing this change, I have to wonder why. Why do we want to lower our standards? Why do we want to put garbage in front of our children? Why do we want to promote objectification of women and a lower standard of speech? I don't prefer that all adjectives and adverbs begin with the letter "F".

In essence, by lowering our standards you contribute to the dumbing down of our nation. We have commissions like the FCC to protect us –not to promote indecency. Please do not reduce standards.

If standards are reduced and I start to hear increased profanity and see increased nudity, I will surely shun broadcast media.

Regards,

David K. Henze
